

# CLEAN

© 2006 Zach and Sarah Blickens

**Intro:** D – A - G

D            A            G  
I stand before the throne of Grace again  
F#                            G  
Before the Holy, Righteous One  
D            A            G  
I feel dirty with these sins exposed  
F#                            G            G – D - A  
And I'm exhausted from hiding

**PreChorus:**

Bm                    G                    D            A  
I know the pure in heart will see Your face  
Bm                    G                    D            A  
You will lift them to fly with You  
Bm                    G                    D            A  
But I've been running from Your love so long  
Bm                    G                    F#            G  
That I don't see how You could want me

**Chorus:**

D            A            Em            G  
And I know that I am unworthy, Lord  
D            A            G  
But I fall down at Your feet  
D            A            Em            G  
And I know my sin crucified You, Lord  
D            A            G  
But I feel You wash me clean

D            A            G  
Stained and broken, here I am again  
F#                            G  
Have I wasted Your mercy?  
D            A            G  
Shame is clinging like a filthy cloud  
F#                            G            G – D - A  
(It) Tears my eyes from the heavens
