

# THIS DAY WE FIGHT

© 2006 Zach and Sarah Blickens

Em            C                    G    D/F#    B7  
Smoke is rising    like a shroud upon the light  
Am                            G            D/F#    CM7  
My horizon    newly marked with tents of war  
Em            C                    G    D/F#    B7  
Seems like yesterday I raised my hands in victory  
Am                            G            D/F#            B7  
Maybe someday men will fall away, but this is not that day

## **Chorus:**

B7                    Em...                    G                    D/F#                    B7  
This day we fight – there has never been another day like today  
B7                    Em...                    G                    D/F#                    B7  
This day we fight – Lord! lift my eyes to the risen King of life

Em            C    G                    D/F#                    B7  
Yes I'm tired, but I've been lying down too long  
Am                            G            D/F#    B7  
The time has come for me to stand before the Lord

## **Bridge:**

CM7                    B                    F#                    G  
My fight is    not with these things my eyes can see  
Am                            B7  
Though I wrestle, still You are with me  
C                            D/F#  
I will live to see You triumph in the end
